PRODUCT DESCRIPTION

All 12v products require a constant voltage power supply and should be wired in parallel. IP rated pre-wired power supplies are also available for 100-350w.

COMPATIBILITY CHART

CODE	MAX LOAD
SL-LED4.8	1M
SL-IP684.8	1M
SL-IP654.8	1M
GL102-RGB	1-4
GL108	1-6
ML103-RGB	1-2

PRODUCT FEATURES

- 12v constant voltage LED driver
- Screw terminal connections
- For use with 12vDC LED luminaires
- For indoor use or within an enclosure
- PC housing
- Mounting tabs for securing to a flat surface
- Wire direct to LED or to a T-CON5 for 12v colour changing LED
- Do not exceed 90% load of the driver
- Suitable for interior architectural, retail and commercial applications.

PRODUCT DATA

Model	T-6W-12VDC
Power	6W
Output Voltage	12V constant voltage
Output Current	0.5A maximum
Input	100 - 240v 50/60Hz
Working Temp.	-5° to +60°
Protection	IP20
Dimensions	L 53mm W 36mm D 22mm
Material	PC housing
Weight	33g
Approvals	CE ROHS

12v LED Strip

Will power up to 1.2m of 4.8w/m or 0.8m of 7.2w/m LED strip FLEX20 / FLEX65

INSTALLATION

Please follow installation guide
